To: Admissions Committee

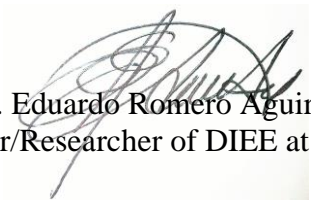

Subject: Letter of Recommendation for Roberto Valenzuela

Dear Admissions Committee

It is my great pleasure to recommend Roberto Valenzuela for admission to your University. He was an outstanding Alumni of the Electronics Engineer program at ITSON (Institute Technology of Sonora). I have known him for almost three years working with him on Digital Systems projects and also serving as his mentor. During this timeframe I witnessed his skills and his facility for collaborative work. For that reasons, I don't have doubt to recommend Roberto Valenzuela for your Computer Science and Hardware Engineering University programs.

If you need more information or specific examples, please do not hesitate to contact me.

Sincerely,

  
Dr. Eduardo Romero Aguirre  
Professor/Researcher of DIEE at ITSON
